## WORK EXPERIENCE

**From Ago-2013 to current**

**TecGurus** (I.T. Quality Services S.A de C.V.)

Training and consulting in software development.

Position in the Company: Chief Operating Officer

Working on T.I."Observatorio Mexicano de Tabaco, Alcohol y Otras Drogas (OMEXTAD)" using technologies, design patterns and tools like JEE , Spring, MVC, Hibernate and PostgreSQL, in this project I participated as project manager, manual tester and developer. In the "Sistema de los Consejos Estatales Contra las Adicciones (SICECA)" with technologies such as PHP, Cake, PDO, PostgreSQL, in this project I participated as project manager, manual tester and developer. Analysis and correction of the Única Empacadora Wunsch Company Network (in this project participated as a project manager). A custom shopping cart with PHP, PDO and MySQL for the company INAVA (here participates as a developer, manual tester as well as project manager). I participated as project leader in the development of the "Plataforma de Requisiciones Electrónicas", in this project technologies like JEE, Spring, MyBatis, MySQL were used. I have been in systems analysis, design and development positions during the different projects, managing databases and development on the back-end and front-end side as well as the coordinator of the leading projects and a manual tester, in all SCRUM services as a development methodology agile.
